BORNIT®

— ROCK SOLID CONNECTIONS

A company rich in traditions, BORNIT-Werk Aschenborn GmbH has unerringly continued on its course of business expansion. Today, the Zwickau based company is present with a complete sales program of chemical construction products for the protection and repair of foundations, facades and roofs, as well as a complete program of road construction products. The company was a successor to the Zwickauer Dachpappen- und Asphaltfabrik (founded in 1868 by Alwin Aschenborn), and has now developed in the family's fifth generation into a medium size industrial company.

After state takeover in 1972 and renaming as the VEB Bitumen-Chemie Zwickau, BORNIT® was one of the first businesses to be reprivatized in 1990. Thanks to extensive investments in new production systems and logistics BORNIT® has become a manufacturer of the latest in chemical construction products. The extensive quality program is largely the result of our own research and development work. A Europe wide sales network forms the basis of competent applications advice and reliable service. One of the most important goals of BORNIT® is to be a reliable partner to its national and international customers. The most convenient geographical location, in the middle of Europe, assures short delivery times, closeness to customers and competent technical advice on site.

Tradition means commitment - since 1868 the brand BORNIT® has stood for the production and sale of chemical construction products of high quality made to protect buildings. This is a tradition which commits us to infusing the market with new ideas based on our own research and development. BORNIT® products are easy to apply in compliance with ecological standards and modern environmental protection.

The BORNIT® program for professionals comprises system solutions for protecting and repairing foundations, facades and roofs, as well as for the new construction and maintenance of road surfaces. A further line offered by BORNIT® comprises tools which permit a more efficient application of the products.

General information on the BORNIT® professional program

Since the working conditions on construction sites and the areas where the products are applied vary considerably we can only give guidelines of a general nature here. These reflect the latest information available.

The statements about quantities required are estimates and depend on the quality of the individual structure, the substrate etc. Test surfaces must be prepared on site to determine the precise quantities needed. In the course of improving our products we reserve the right to modify specifications.

All the data in the current sales catalog are based on the knowledge available at the time of publication. Current information can be found in the German individual specification sheets, safety data sheets and transport regulations which can be ordered for free from BORNIT® or be downloaded at our German website www.bornit.de/de. We reserve the right to modify the packaging so that the product pictures cannot be construed as the basis of a legal claim at the time of delivery. Minor deviations in Colour related to the raw materials may occur from one batch to another. That is why if you have ordered Coloured products you should use the same batch number.

Roof

Primer, coatings, filler compounds, adhesives

BORNIT® 5M Primer

Solvent-based, extremely quick-drying, brushable and sprayable bitumen primer based on bitumen. BORNIT® 5M Primer is used when short drying times are required in order to achieve rapid work progress

System products:
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	10 ltr.	black	approx. 50 m ²
	25 ltr.	black	approx. 125 m ²

Order-No.	EAN-Code	Palletisation
6900004355	4 017228 00544 7	45 bucket
6900004356	4 017228 00589 8	18 bucket

BORNIT® Roof Varnish

Solvent-based bitumen top coat for the first coat as well as renovation and maintenance of bituminous and mineral roof coverings, UV-resistant, brush- and sprayable

System products:
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	5 ltr.	black	approx. 12.5 m ²
	10 ltr.	black	approx. 25.0 m ²
	25 ltr.	black	approx. 62.5 m ²
	200 ltr.	black	approx. 500 m ²

Order-No.	EAN-Code	Palletisation
6900002631	4 017228 00354 2	75 bucket
6900002533	4 017228 00355 9	45 bucket
6900002630	4 017228 00356 6	18 bucket
6900002629	4 017228 00357 3	4 barrel

BORNIT® Bitumen Primer Spray

Solvent-containing bitumen primer for easy priming of smaller bituminous and mineral substrates like concrete, asphalt and masonry surfaces, prior to laying bituminous welded sheeting, processing of solvent-containing bitumen coatings as well as road repair materials, fast-drying

System products:
BORNIT® Coldmix Asphalt (bag)
BORNIT® Coldmix Asphalt (bucket)
BORNIT® Reactive Asphalt
BORNIT® Crack Tape

Type	Content	Colour	sufficient for
	600 ml	black	approx. 3 m ²

Order-No.	EAN-Code	Palletisation
6900002553	4 017228 00347 4	12 cans per box

BORNIT® Speedbit Primer

Solvent-free, quick-drying elastomer bitumen primer for laying bitumen welding membranes indoors and outdoors, can be rolled, brushed or sprayed

System products:
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
Bitumen roof sheetings

Type	Content	Colour	sufficient for
	10 ltr.	black	approx. 50 m ²
	25 ltr.	black	approx. 125 m ²

Order-No.	EAN-Code	Palletisation
6900004117	4 017228 00541 6	44 bucket
6900004118	4 017228 00542 3	18 bucket

BORNIT® Bitumen Primer

Solvent-based bitumen primer for the pretreatment of bituminous and mineral substrates such as concrete and masonry surfaces, before laying bitumen welding membranes, quick-drying, brush- and sprayable

System products:
BORNIT® Roof Varnish
BORNIT® Bitumen Adhesive
BORNIT® Bitumen Mastic
BORNIT® Bitumen Coating

Type	Content	Colour	sufficient for
	5 ltr.	black	approx. 25 m ²
	10 ltr.	black	approx. 50 m ²
	25 ltr.	black	approx. 125 m ²
	200 ltr.	black	approx. 1000 m ²

Order-No.	EAN-Code	Palletisation
6900002635	4 017228 00350 4	75 bucket
6900002634	4 017228 00351 1	45 bucket
6900002633	4 017228 00352 8	18 bucket
6900002632	4 017228 00353 5	2 barrel

BORNIT® Grundbit

Solvent-free bitumen primer for the pretreatment of bituminous and mineral substrates such as concrete and masonry surfaces, before laying bitumen welding membranes and for bitumen emulsion coatings, can be rolled, brushed or sprayed

System products:
BORNIT® Dachbit
BORNIT® Flexbit
BORNIT® Unibit
Bitumen roof sheetings

Type	Content	Colour	sufficient for
	5 ltr.	black	approx. 25 m ²
	10 ltr.	black	approx. 50 m ²
	25 ltr.	black	approx. 125 m ²

Order-No.	EAN-Code	Palletisation
6900002527	4 017228 00292 7	60 bucket
6900002529	4 017228 00293 4	44 bucket
6900002666	4 017228 00294 1	18 bucket

Roof

Primer, coatings, filler compounds, adhesives

BORNIT® Dachbit

Greenline

System products:
BORNIT® Grundbit
BORNIT® Glass Fabric 58
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Solvent-free bitumen top coat for the protection and maintenance of bituminous and mineral roof coverings, UV-resistant, brush- and sprayable

Type	Content	Colour	sufficient for
5 ltr.		black	approx. 12.5 m ²
10 ltr.		black	approx. 25.0 m ²
25 ltr.		black	approx. 62.5 m ²

Order-No.	EAN-Code	Palletisation
6900002665	4 017228 00279 8	60 bucket
6900002664	4 017228 00287 3	44 bucket
6900002663	4 017228 00283 5	18 bucket

BORNIT® Bitumen Mastic

Solvent-based, fiber-reinforced bitumen leveling compound for repairing imperfections on roof coverings made from bitumen roofing membranes and for sealing fillet connections on chimneys and wall transitions, UV-resistant, bridging cracks, can be filled with a spatula

Type	Content	Colour	sufficient for
1 kg		black	approx. 0.8 m ²
2,5 kg		black	approx. 2 m ²
6 kg		black	approx. 5 m ²
12 kg		black	approx. 10 m ²

System products:
BORNIT® Bitumen Primer
BORNIT® Bitumen Primer Spray
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Order-No.	EAN-Code	Palletisation
6800000347	4 017228 00379 5	18 cans per box
6800000340	4 017228 00364 1	99 bucket

6800000338	4 017228 00366 5	45 bucket

BORNIT® Flexbit

Greenline

System products:
BORNIT® Grundbit
BORNIT® Glass Fabric 58
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Solvent-free, crack-bridging bitumen elastic coating for the protection of roof coverings against the effects of the weather, moisture protection for components in contact with the ground and for intermediate sealing on horizontal surfaces, UV-resistant, brush- and sprayable

Type	Content	Colour	sufficient for
5 ltr.		black	approx. 10 m ²
10 ltr.		black	approx. 20 m ²
25 ltr.		black	approx. 50 m ²

Order-No.	EAN-Code	Palletisation
6900002660	4 017228 00281 1	60 bucket

6900002659	4 017228 00285 9	18 bucket

BORNIT® Adhesive Filler

Solvent-based bitumen filler, for small seals of cracks and holes, for gluing bitumen sheeting, crack-bridging, UV-resistant

Type	Content	Colour	sufficient for
310 ml		black	approx. 12 m

System products:
BORNIT® Bitumen Primer
BORNIT® Bitumen Primer Spray
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Order-No.	EAN-Code	Palletisation
6800001095	4 017228 00316 0	20 pieces per box

BORNIT® Glass Fabric 58

System products:
BORNIT® Dachbit
BORNIT® Flexbit

Reinforcement core for roof coatings with BORNIT® Dachbit or BORNIT® Flexbit

Type	Content	Colour	sufficient for
50 m		white	approx. 45 - 50 m ²

Order-No.	EAN-Code	Palletisation
6800000591	4 017228 00228 6	33 roll

BORNIT® Bitumen Adhesive

Solvent-based bitumen adhesive for bonding sheet-like roof coverings (except bitumen welding strips) and other roofing materials with roof pitches of up to 12.5%, can be brushed on

Type	Content	Colour	sufficient for
5 ltr.		black	approx. 6.25 m ²
10 ltr.		black	approx. 12.5 m ²
25 ltr.		black	approx. 18.75 m ²

System products:
BORNIT® Bitumen Primer
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
Bitumen roof sheetings

Order-No.	EAN-Code	Palletisation
6900002613	4 017228 00368 9	75 bucket
6900002535	4 017228 00369 6	45 bucket
6900002612	4 017228 00370 2	18 bucket

Roof

Primer, coatings, filler compounds, adhesives

BORNIT® Alu-Tape

Self-adhesive bitumen sealing and repair tape for reliable sealing and repair work on gutters, eaves, wall connections etc., one-sided aluminum coating, UV-resistant, high adhesive strength

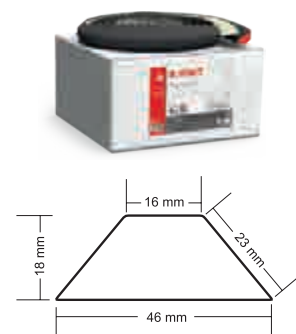

System products:
BORNIT® Spray Adhesive
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
75 mm	10 m	aluminium	10 m
100 mm	10 m	aluminium	10 m
150 mm	10 m	aluminium	10 m

Order-No.	EAN-Code	Palletisation
6800000369	4 017228 00242 2	4 rolls per box
6800000370	4 017228 00436 5	3 rolls per box
6800000371	4 017228 00437 2	2 rolls per box

BORNIT® Trapezium Tape

Highly flexible, meltable elastomer bitumen tape for safe and easy joint sealing and valley formation in civil engineering and support surfaces of precast concrete parts

System products:
BORNIT® Bitumen Primer
BORNIT® Bitumen Primer Spray
BORNIT® Basement Primer
BORNIT® MultiClean Spray

Type	Content	Colour	sufficient for
18x46 mm	25 m	black	approx. 25 m

Order-No.	EAN-Code	Palletisation
6900002710	4 017228 00057 2	24 box

BORNIT® Spray Adhesive

Solvent-based special primer and assembly adhesive in one, for surface preparation when processing BORNIT® Alu Tape, quick-drying, sprayable

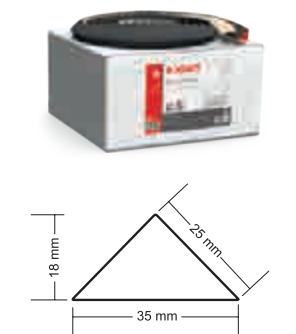

System products:
BORNIT® Alu Tape

Type	Content	Colour	sufficient for
	400 ml	light-beige	approx. 6 m²

Order-No.	EAN-Code	Palletisation
6800000823	4 017228 00227 9	12 cans per box

BORNIT® Triangle Tape

Highly flexible, meltable elastomer bitumen tape for safe and easy joint sealing and right angle corners in civil engineering

System products:
BORNIT® Bitumen Primer Spray
BORNIT® Profi 1C Express
BORNIT® 2C Flex Bitumen Thick Coating
BORNIT® MultiClean Spray

Type	Content	Colour	sufficient for
18x35 mm	25 m	black	approx. 25 m

Order-No.	EAN-Code	Palletisation
6900002711	4 017228 00056 5	24 box

BORNIT® Bitumen

Bituminous, hot-processable roof and waterproofing adhesive, without fillers, softening point above +100 ° C, meltable

System products:
BORNIT® Bitumen Primer
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
100/25	30 kg	black	approx. 23 m²

Order-No.	EAN-Code	Palletisation
6900002247	4 017228 00373 3	36 bag

BORNIT® Roof Primer 220

Solvent-free primer for the roof coating BORNIT® Roof Paint 230

System products:
BORNIT® Roof Paint 230

Type	Content	Colour	sufficient for
	10 ltr.	bluish-transparent	approx. 50.0 m²

Order-No.	EAN-Code	Palletisation
6800000413	4 017228 00489 1	40 bucket

Roof

Primer, coatings, filler compounds, adhesives

BORNIT® Roof Paint 230

Solvent-free, colored and weather-resistant acrylic-based roof paint

System products:
BORNIT® Roof Primer 220

Type	Content	Colour	sufficient for
	10 kg	brick-red	approx. 16.6 m²
	10 kg	anthracite	approx. 16.6 m²
		further colours on request	

Order-No.	EAN-Code	Palletisation

BORNIT® MultiClean

Highly effective, plant-based cleaning spray for the rapid, thorough removal of dirt in the form of tar, bitumen and asphalt.

System products:
all bitumen-based BORNIT® products

Type	Content	Colour	sufficient for
	10 ltr.	transparent	dep. on degree of contamination

Order-No.	EAN-Code	Palletisation
6700000032	4 017228 00068 8	20 canister

BORNIT® MultiClean Spray

Highly effective, plant-based cleaning spray for the rapid, thorough removal of dirt in the form of tar, bitumen and asphalt.

System products:
all bitumen-based BORNIT® products

Type	Content	Colour	sufficient for
	600 ml	transparent	dep. on degree of contamination

Order-No.	EAN-Code	Palletisation
6800000350	4 017228 00066 4	12 cans per box

Graco® GH 5040

Gasoline-powered hydraulic high-pressure spraying device, no additional compressor required, powerful Honda engine with 13.2 HP, max. 345 bar, large action radius thanks to hose lengths of up to 130 m - thus flexible work in the excavation without moving the spraying device, spraying also from IBC tank pallets or from the BORNIT® BituBox possible.

Type	Content	Colour
	1 piece	blue

Order-No.	EAN-Code	Palletisation
		1

Processable BORNIT® Products:

BORNIT® 5M Primer
BORNIT® Bitumen Primer
BORNIT® Roof Varnish
BORNIT® Dachbit
BORNIT® Flexbit
BORNIT® Grundbit
BORNIT® Speedbit Primer

Graco® Dutymax EH 300 / GH 300

Optionally electrically or petrol-powered hydraulic high-pressure spraying device; high-performance motors (EH: 7.5 HP / GH: 9.0 HP); no additional compressor required; connection of long hoses possible up to 60 m - thus flexible working in the construction pit without relocation of the spraying device; spraying also possible from IBC tank pallets or from the BORNIT® BituBox.

Type	Content	Colour
	1 piece	blue

Order-No.	EAN-Code	Palletisation
		1

Processable BORNIT® Products:

BORNIT® 5M Primer
BORNIT® Bitumen Primer
BORNIT® Roof Varnish
BORNIT® Dachbit
BORNIT® Flexbit
BORNIT® Grundbit
BORNIT® Speedbit Primer

BORNIT® Unibit

Solvent-free bitumen coating to protect concrete, plaster and masonry against soil moisture, brush- and sprayable

Greenline

System products:
BORNIT® Grundbit
BORNIT® Glass Fabric 58
BORNIT® BORNithene Plus
BORNIT® MultiClean Spray

Type	Content	Colour	sufficient for
	5 ltr.	black	approx. 16.6 m ²
	10 ltr.	black	approx. 33 m ²
	25 ltr.	black	approx. 83 m ²

6900002661	4 017228 00284 2	18 bucket

Wall

Primers, coatings, thick coatings, sealing slurries

BORNIT® Flexbit

Greenline

Solvent-free, crack-bridging bitumen elastic coating for the protection of roof coverings against the effects of the weather, moisture protection for components in contact with the ground and for intermediate sealing on horizontal surfaces, UV-resistant, brush- and sprayable

System products:
BORNIT® Grundbit
BORNIT® Glass Fabric 58
BORNIT® MultiClean Spray
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	5 ltr.	black	approx. 10 m ²
	10 ltr.	black	approx. 20 m ²
	25 ltr.	black	approx. 50 m ²

Order-No.	EAN-Code	Palletisation

6900002659	4 017228 00285 9	18 bucket

BORNIT® 2C Bitumen Thick Coating

2-component, fiber-reinforced bitumen thick coating for the secure sealing of structures according to DIN 18533 W1-E, W2.1-E, W3-E, W4-E and for gluing perimeter insulation panels in the area in contact with the ground, PMBC according to EN 15814, can be troweled and sprayed-on

System products:
BORNIT® Basement Primer
BORNIT® Triangle Tape
BORNIT® Slurry SF
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	32 kg	black	approx. 4.9 - 7.1 m ²

Order-No.	EAN-Code	Palletisation
6900002536	4 017228 00409 9	18 bucket

BORNIT® Basement Primer

Solvent-free polymer bitumen primer for the pretreatment of mineral substrates such as concrete and masonry surfaces, thin liquid, quick-drying, brush- and sprayable

System products:
BORNIT® 1C Bitumen Thick Coating
BORNIT® Profi 1C Express
BORNIT® 2C Bitumen Thick Coating
BORNIT® 2C Flex Bit. Thick Coating

Type	Content	Colour	sufficient for
	5 ltr.	black	approx. 25 m ²
	10 ltr.	black	approx. 50 m ²
	20 ltr.	black	approx. 100 m ²

6900002657	4 017228 00443 3	60 canister
6900002656	4 017228 00444 0	60 canister
6900002655	4 017228 00395 5	24 canister

BORNIT® 2C Flex Bitumen Thick Coating

2-component, polystyrene-filled bituminous thick coating for the secure waterproofing of structures according to DIN 18533 W1-E, W2.1-E, W3-E, W4-E and for the adhesion of perimeter insulation boards in the area in contact with the soil, PMBC according to EN 15814, with general building authority test certificate according to PG ÜBB, trowelable and sprayable

System products:
BORNIT® Basement Primer
BORNIT® Triangle Tape
BORNIT® Slurry SF
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	30 ltr.	black	approx. 4.6 - 6.6 m ²

Order-No.	EAN-Code	Palletisation
6900002539	4 017228 00442 6	18 bucket

BORNIT® 1C Bitumen Thick Coating

1-component, polystyrene-filled bitumen thick coating for the reliable sealing of structures according to DIN 18533 W1-E, W4-E and for gluing perimeter insulation panels in areas in contact with the ground, PMBC according to EN 15814, can be troweled and sprayed-on

System products:
BORNIT® Basement Primer
BORNIT® Triangle Tape
BORNIT® Slurry SF
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	12 ltr.	black	approx. 2.7 m ²
	32 ltr.	black	approx. 6.4 - 7.1 m ²

Order-No.	EAN-Code	Palletisation
6900002648	4 017228 00407 5	44 bucket
6900002647	4 017228 00408 2	18 bucket

Collomix® Hand Mixer

Powerful and powerful professional 2-speed agitator; particularly suitable for stirring in all 2-component BORNIT® bitumen thick coatings in connection with an anchor stirrer; optimal ergonomics through upright working position and handle shape; electronic speed regulation; ideal mixing volume up to 65 liters; HEXAFIX® quick change coupling or M-14 holder.

System products:
BORNIT® Anchor Stirrer

Type	Content	Colour	sufficient for
Xo 4	1 piece	blue-green	up to 60 liters mixed quantity

Order-No.	EAN-Code	Palletisation
on request	4 011024 25118 3	

Wall

Primers, coatings, thick coatings, sealing slurries

BORNIT® Anchor Stirrer

Specially shaped mixing paddle for bubble-free mixing of multi-component thick bitumen coatings or mineral waterproofing slurries, ideal for the Xo 4 hand mixer

System products:
BORNIT® 2C Bitumen Thick Coating
BORNIT® 2C Flex Bit. Thick Coating
BORNIT® Profi Hybrid 2C
BORNIT® Mineral-Flex 2K

Type	Content	Colour	sufficient for
AR170 HF	1 piece	green	

Order-No.	EAN-Code	Palletisation
6800000520	4 017228 00849 3	

BORNIT® Mineral Flex 2C

2-component, bitumen-free, mineral, flexible polymer-modified thick coating (FPD) for the secure sealing of buildings, for the bonding of perimeter insulation boards, quickly rainproof, waterproof after 24 hours, crack-bridging, UV-resistant, plasterable, trowel- and sprayable, radon-proof

System products:
BORNIT® Basic Primer
BORNIT® Sealing Mortar
BORNIT® Slurry SF
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	25 kg	dark grey	approx. 5.2 - 10.4 m ²

Order-No.	EAN-Code	Palletisation
6800000947	4 017228 00943 8	18 bucket

BORNIT® Stick Emulsion

Solvent-free dispersion for the modification of cement-based mortars, improves adhesion and elasticises, primer for BORNIT® Profi Hybrid 2C (diluted 1 : 1 with water)

System products:
BORNIT® Profi Hybrid 2C
BORNIT® Slurry SF
BORNIT® Sealing Mortar

Type	Content	Colour	sufficient for
	1 kg	white	approx. 5.0 m ²
	10 kg	white	approx. 50.0 m ²

Order-No.	EAN-Code	Palletisation
6700000107	4 017228 00274 3	
6800000356	4 017228 00458 7	60 canister

BORNIT® Profi 1C Express

1-component, polystyrene-filled bitumen thick coating for the secure waterproofing of structures according to DIN 18533 W1-E, W2.1-E, W3-E, W4-E and for the adhesion of perimeter insulation boards in areas in contact with the soil, PMBC according to EN 15814, quick-drying, can be troweled and sprayed-on, radon-proof

System products:
BORNIT® Basement Primer
BORNIT® Triangle Tape
BORNIT® Slurry SF
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	32 ltr.	black	approx. 6.4 - 9.1 m ²

Order-No.	EAN-Code	Palletisation
6900002651	4 017228 00496 9	18 bucket

BORNIT® Profi Hybrid 2C

2-component, flexible reactive sealant for the secure sealing of structures according to DIN 18533 W1-E, W2.1-E, W3-E, W4-E, can be used in the plinth area and for bonding insulation boards, according to EN 15814, quick-drying, trowel- and sprayable, radon-tight

System products:
BORNIT® Stick Emulsion
BORNIT® Sealing Mortar
BORNIT® Slurry SF
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	9 kg	anthracite	approx. 2.0 - 2.5 m ²
	24 kg	anthracite	approx. 5.3 - 6.8 m ²

Order-No.	EAN-Code	Palletisation
6900004319	4 017228 00883 7	24 bucket
6900002658	4 017228 00836 3	18 bucket

BORNIT® Repabit

Solvent-free, 2-component, fiber-reinforced bitumen repair compound for the production of coves in the roof and foundation area, sealing of pipe penetrations, watertight, bridging cracks, can be troweled

System products:
BORNIT® Basement Primer
BORNIT® Triangle Tape
BORNIT® Slurry SF
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	3 kg	black	approx. 4 - 6 kg/m ²

Order-No.	EAN-Code	Palletisation
6900002667	4 017228 00494 5	60 bucket

Wall

Primers, coatings, thick coatings, sealing slurries

BORNIT® BORNithene Plus

Cold self-adhesive polymer bitumen sheeting for waterproofing buildings according to DIN 18533 against soil moisture and non-pressing water as well as against splash and capillary water (W1-E and W4-E), immediately waterproof, tear-resistant, crack-bridging

System products:
BORNIT® Hot Compound Primer
BORNIT® Hot Compound Primer Spray
BORNIT® Triangle Tape
BORNIT® Trapezium Tape

Type	Content	Colour	sufficient for
	15 m ²	black	approx. 13.8 m ² with an 8 cm overlap

Order-No.	EAN-Code	Palletisation
6800000518	4 017228 00248 4	15 roll

BORNIT® Triangle Tape

Highly flexible, meltable elastomer bitumen tape for safe and easy joint sealing and right angle corners in civil engineering

System products:
BORNIT® Bitumen Primer
BORNIT® Bitumen Primer Spray
BORNIT® Basement Primer
BORNIT® Trapezium Tape

Type	Content	Colour	sufficient for
	18x35 mm 25 m	black	approx. 25 m

Order-No.	EAN-Code	Palletisation
6900002711	4 017228 00056 5	24 box

BORNIT® Glass Fabric 165

Reinforcement core for waterproofing compliant with DIN 18533 especially suitable for all BORNIT® Bituminous Thick Coatings (PMBC)

System products:
BORNIT® 1C Bitumen Thick Coating
BORNIT® 2C Bitumen Thick Coating
BORNIT® 2C Flex Bit. Thick Coating
BORNIT® Profidicht 1K Fix

Type	Content	Colour	sufficient for
	50 m	white	approx. 45 - 50 m ²

Order-No.	EAN-Code	Palletisation
6800000481	4 017228 00416 7	33 roll

BORNIT® EasyPipe

Safe pipe sealing system for use in the foundation and roof area, with little preparatory work and easy handling - maximum safety

System products:
BORNIT® 1C Bitumen Thick Coating
BORNIT® 2C Bitumen Thick Coating
BORNIT® 2C Flex Bit. Thick Coating
BORNIT® Profidicht 1K Fix

Type	Content	Colour	sufficient for
8-25 mm	1 piece	transparent	1 pipe aperture
26-44 mm	1 piece	transparent	1 pipe aperture
45-63 mm	1 piece	transparent	1 pipe aperture

BORNIT® Joint Fabric Tape

Flexible sealing tape with rubber coating, for sealing of joints and connections, total width 240 mm, rubberized width 150 mm

System products:
BORNIT® 1C Bitumen Thick Coating
BORNIT® 2C Bitumen Thick Coating
BORNIT® 2C Flex Bit. Thick Coating
BORNIT® Profidicht 1K Fix

Type	Content	Colour	sufficient for
150 mm	30 m	white-grey-white	approx. 30 m of expansion joint

Order-No.	EAN-Code	Palletisation
6800000798	4 017228 00917 9	

BORNIT® Basic Primer

Solvent-free primer, as basic protection for the rear moisture protection system in the concave molding, strengthening the building material, against mortar-decomposing salts and efflorescence

System products:
BORNIT® Triangle Tape
BORNIT® 1C Bitumen Thick Coating
BORNIT® 2C Bitumen Thick Coating
BORNIT® 2C Flex Bit. Thick Coating

Type	Content	Colour	sufficient for
	10 kg	transparent	approx. 96 - 100 m ²

Order-No.	EAN-Code	Palletisation
6900002784	4 017228 00020 6	60 canister

Wall

Primers, coatings, thick coatings, sealing slurries

BORNIT® Slurry SF

1-component, mineral, rigid sealing slurry for surface sealing in new and old buildings as well as water tanks

System products:
BORNIT® Basic Primer
BORNIT® Stick Emulsion
BORNIT® Sealing Mortar

Type	Content	Colour	sufficient for
	25 kg	grey	approx. 6.25 m ²

Order-No.	EAN-Code	Palletisation
6800000361	4 017228 00457 0	40 bag

BORNIT® Slurry EL

2-component, crack-bridging, white, mineral sealing slurry for sealing mineral components, can be brushed and troweled

System products:
BORNIT® Basic Primer
BORNIT® Glass Fabric 165

Type	Content	Colour	sufficient for
	33 kg	grey/white	approx. 8.9 m ²

Order-No.	EAN-Code	Palletisation
6900002694	4 017228 00459 4	40+40 bag + canister

BORNIT® Sealing Mortar

Ready-mixed mortar for the production of wall / floor connection grooves in basement construction, water-repellent wall and joint mortar, for the creation of barrier plasters, after curing water-repellent and frost-resistant

System products:
BORNIT® Stick Emulsion
BORNIT® Slurry SF

Type	Content	Colour	sufficient for
	25 kg	grey	approx. 16 - 25 m ² at 1 mm layer thickness

Order-No.	EAN-Code	Palletisation
6800000358	4 017228 00460 0	40 bag

BORNIT® Anti Sulphate

Solvent-free deep primer based on polymer and silicate, for the renovation of masonry against salts and efflorescence, has a solidifying and impregnating effect

System products:
BORNIT® Slurry SF

Type	Content	Colour	sufficient for
	1 kg	transparent	approx. 7.69 bis 10.0 m ²
	10 kg	transparent	approx. 12.5 - 20.0 m ²

Order-No.	EAN-Code	Palletisation

6800000410	4 017228 00462 4	60 canister

BORNIT® Injection Cream Plus

Solvent-free, highly concentrated injection agent for pressureless, subsequent injection against capillary rising moisture, applicable for moisture penetration up to 95 %

System products:
BORNIT® Anti Sulphate
BORNIT® Sealing Mortar

Type	Content	Colour	sufficient for
	5 kg	white-yellowish	approx. 2.9 linear metre per m ² of wall cross-section

Order-No.	EAN-Code	Palletisation
6800000587	4 017228 00880 6	60 bucket

BORNIT® Injektil 100

Solvent-free injection agent, against capillary rising wall moisture of up to max. 65% and 0.7 m wall thickness, Use by means of pressureless injection, but also pressure injection possible

System products:
BORNIT® Anti Sulphate
BORNIT® Empty cartridge with spout
BORNIT® Filling Sticks

Type	Content	Colour	sufficient for
	1 ltr.	transparent	0.05 m ² of masonry cross-section
	10 ltr.	transparent	0.5 m ² of masonry cross-section
	20 ltr.	transparent	1 m ² of masonry cross-section

Order-No.	EAN-Code	Palletisation
6900002689	4 017228 00403 7	20 per box
6900002688	4 017228 00405 1	60 canister
6900002538	4 017228 00406 8	24 canister

Wall

Primers, coatings, thick coatings, sealing slurries

BORNIT® Injektil Super

Solvent-free, hydrophobic injection agent for the renovation and material consolidation of masonry and concrete walls, forms a chemical horizontal barrier against rising moisture, self-dosing when processed with capillary sticks

System products:
BORNIT® Anti Sulphate
BORNIT® Empty cartridge with spout
BORNIT® Filling Sticks

Type	Content	Colour	sufficient for
	550 g	orange-transparent	approx. 0.04 m ²
	10 kg	orange-transparent	approx. 0.67 m ²
	20 kg	orange-transparent	approx. 1.3 m ²

Order-No.	EAN-Code	Palletisation
6900002693	4 017228 00447 1	36 bottles per box

6900002691	4 017228 00463 1	24 canister

BORNIT® Corrosion Preventer

Solvent-based bitumen protective coating against metal corrosion, reliably protects metal against rust as well as against diluted, non-oxidizing acids, smoke gases and vapors, chemical-resistant

System products:
BORNIT® Bitumen Primer
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	10 ltr.	black	approx. 25 m ²
	25 ltr.	black	approx. 62.5 m ²

Order-No.	EAN-Code	Palletisation
6900002627	4 017228 00465 5	45 bucket
6900002626	4 017228 00466 2	18 bucket

BORNIT® Empty cartridge with spout

Plastic bottle with spout; capacity: 500 ml

System products:
BORNIT® Injektil Super
BORNIT® Injektil 100

Type	Content	Colour	sufficient for
	500 ml	transparent	depending on the application

Order-No.	EAN-Code	Palletisation
6190000519	4 017228 00481 5	36 bottles per box

BORNIT® Siloflex Primer

Solvent-free polymer bitumen primer for the preparation of the substrate for BORNIT® Siloflex on concrete and masonry surfaces, quick-drying, brush- and sprayable

System products:
BORNIT® Siloflex
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	10 ltr.	black	approx. 50 m ²
	20 ltr.	black	approx. 100 m ²

Order-No.	EAN-Code	Palletisation
6900004842	4 017228 00312 2	60 canister
6900004841	4 017228 00313 9	24 canister

BORNIT® Filling Sticks

Cellulose sticks for homogeneous, loss-free distribution of injection fluids

System products:
BORNIT® Injektil Super
BORNIT® Empty cartridge with spout

Type	Content	Colour	sufficient for
	50 piece	white	approx. 45 cm drill hole

Order-No.	EAN-Code	Palletisation
6800000365	4 017228 00474 7	

BORNIT® Siloflex

Solvent-free bitumen coating for coatings on JGS systems as a tested alternative to synthetic resin seals, with general building authority approval from DiBt, UV-resistant, brush- and sprayable

Greenline

System products:
BORNIT® Siloflex Primer
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	25 kg	black	approx. 50 - 62.5 m ²
	180 kg	black	approx. 360 m ²

Order-No.	EAN-Code	Palletisation
6900004796	4 017228 00310 8	18 bucket
6900004797	4 017228 00311 5	2 barrel

Wall

Primers, coatings, thick coatings, sealing slurries

BORNIT® Silo Primer

Solvent-based bitumen primer for the pretreatment of concrete, plaster or wall surfaces, brush- and sprayable, tested according to AIB

Greenline

System products:
BORNIT® Bitumen Primer
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	10 ltr.	black	approx. 50 m ²
	25 ltr.	black	approx. 125 m ²
	200 ltr.	black	approx. 1000 m ²

Order-No.	EAN-Code	Palletisation
6900002638	4 017228 00418 1	45 bucket
6900002637	4 017228 00419 8	18 bucket
6900002636	4 017228 00420 4	4 barrel

BORNIT® Silo Coating

Solvent-based, acid-resistant bitumen coating to protect concrete, masonry, plaster, wood and metal against aggressive waste water, alkalis, organic acids and salts, can be brushed and sprayed-on

System products:
BORNIT® Silo Primer
BORNIT® MultiClean Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
	10 ltr.	black	approx. 25 m ²
	25 ltr.	black	approx. 62.5 m ²
	200 ltr.	black	approx. 500 m ²

6900002640	4 017228 00412 9	4 barrel

BORNIT® Bitumen Cleaner

Bitumen remover for cleaning bitumen-contaminated surfaces and tools

System products:
all bitumen-based BORNIT® products

Type	Content	Colour	sufficient for
	1 ltr.	transparent	dep. on degree of contamination
	10 ltr.	transparent	dep. on degree of contamination

Order-No.	EAN-Code	Palletisation
6900002608	4 017228 00417 4	12 cans per box
6900002609	4 017228 00429 7	50 canister

BORNIT® MultiClean

Highly effective, plant-based cleaning spray for the rapid, thorough removal of dirt in the form of tar, bitumen and asphalt.

System products:
all bitumen-based BORNIT® products

Type	Content	Colour	sufficient for
	10 ltr.	transparent	dep. on degree of contamination

Order-No.	EAN-Code	Palletisation
6700000032	4 017228 00068 8	20 canister

BORNIT® MultiClean Spray

Highly effective, plant-based cleaning spray for the rapid, thorough removal of dirt in the form of tar, bitumen and asphalt.

System products:
all bitumen-based BORNIT® products

Type	Content	Colour	sufficient for
	600 ml	transparent	dep. on degree of contamination

Order-No.	EAN-Code	Palletisation
6800000350	4 017228 00066 4	12 cans per box

W all

Processing tools for a quick and optimal result

Graco® GH 5040

Gasoline-powered hydraulic high-pressure spraying device, no additional compressor required, powerful Honda engine with 13.2 HP, max. 345 bar, large action radius thanks to hose lengths of up to 130 m - thus flexible work in the excavation without moving the spraying device, spraying also from IBC tank pallets or from the BORNIT® BituBox possible.

Type	Content	Colour	Order-No.	EAN-Code	Palletisation
	1 piece	blue			1

Processable BORNIT® Products:

BORNIT® Basement Primer
BORNIT® Profi 1C S
BORNIT® 1C Bitumen Thick Coating
BORNIT® Profi 1C Express
BORNIT® 2C Flex Bitumen Thick Coating
BORNIT® Profi Hybrid 2C
BORNIT® Flexbit
BORNIT® Grundbit
BORNIT® Speedbit Primer
BORNIT® Silo Primer
BORNIT® Silo Coating
BORNIT® Siloflex Primer

Graco® Mark X Max

Electrically operated hydraulic high-pressure sprayer, no additional compressor required, powerful motor with 4.0 hp, max. 230 bar, large operating radius thanks to hose lengths of up to 60 m - thus flexible working in the construction pit without moving the sprayer, spraying also possible from IBC tank pallets.

Type	Content	Colour	Order-No.	EAN-Code	Palletisation
	1 piece	blue			1

Processable BORNIT® Products:

BORNIT® Basement Primer

BORNIT® Siloflex Primer
BORNIT® Unibit

Graco® Dutymax EH 300 / GH 300

Optionally electrically or petrol-powered hydraulic high-pressure spraying device; high-performance motors (EH: 7.5 HP / GH: 9.0 HP); no additional compressor required; connection of long hoses possible up to 60 m - thus flexible working in the construction pit without relocation of the spraying device; spraying also possible from IBC tank pallets or from the BORNIT® BituBox.

Type	Content	Colour	Order-No.	EAN-Code	Palletisation

Processable BORNIT® Products:

BORNIT® Basement Primer
BORNIT® Profi 1C S
BORNIT® 1C Bitumen Thick Coating
BORNIT® Profi 1C Express
BORNIT® 2C Flex Bitumen Thick Coating
BORNIT® Profi Hybrid 2C
BORNIT® Flexbit
BORNIT® Grundbit
BORNIT® Speedbit Primer
BORNIT® Silo Primer
BORNIT® Silo Coating
BORNIT® Siloflex Primer

Inomat® inoBEAM M8

Universal and handy 230 V feed pump for liquid and pasty materials, easy operation, quick cleaning and maintenance, stepless quantity regulation, safe to run dry, removable material container, connection socket for remote control cable, can be combined with large containers. Material conveyance is based on the flexing principle - flexible rubber washer pushes the conveyed material through the pump housing into the material hose, which results in less frictional heat and the material is conveyed very gently.

Primers, coatings, thick coatings, sealing slurries

BORNIT® Basement Coating System, inside

This product system consists of three complementary products which seal masonry against pressurized water from inside. The effectiveness is immediately visible even for flowing water. The seal is made against water pressure from the negative side.

BORNIT® Slurry (SM1)

Mineral sealing slurry, quick-setting, high resistance to strong water pressure, can be brushed on

System products:
BORNIT® Water Stop (SM2)
BORNIT® Solidificator (SM3)
BORNIT® Basement Coating System, inside
BORNIT® Sealing Mortar

Type	Content	Colour	sufficient for
	15 kg	grey	approx. 6 m ²

Order-No.	EAN-Code	Palletisation
6800000363	4 017228 00434 1	36 bucket

BORNIT® Water Stop (SM2)

Highly reactive powder with an extremely short solidification time (a few seconds), for sealing flow points

System products:
BORNIT® Sealing Mortar
BORNIT® Slurry (SM1)
BORNIT® Solidificator (SM3)
BORNIT® Basement Coating System, inside

Type	Content	Colour	sufficient for
	15 kg	grey	approx. 10 m ²

Order-No.	EAN-Code	Palletisation
6800000362	4 017228 00432 7	36 bucket

BORNIT® Solidificator (SM3)

Water-thin liquid to consolidate the subsoil, reacts to form a water-insoluble compound, spreadable

System products:
BORNIT® Slurry (SM1)
BORNIT® Water Stop (SM2)
BORNIT® Basement Coating System, inside
BORNIT® Profi Hybrid 2C

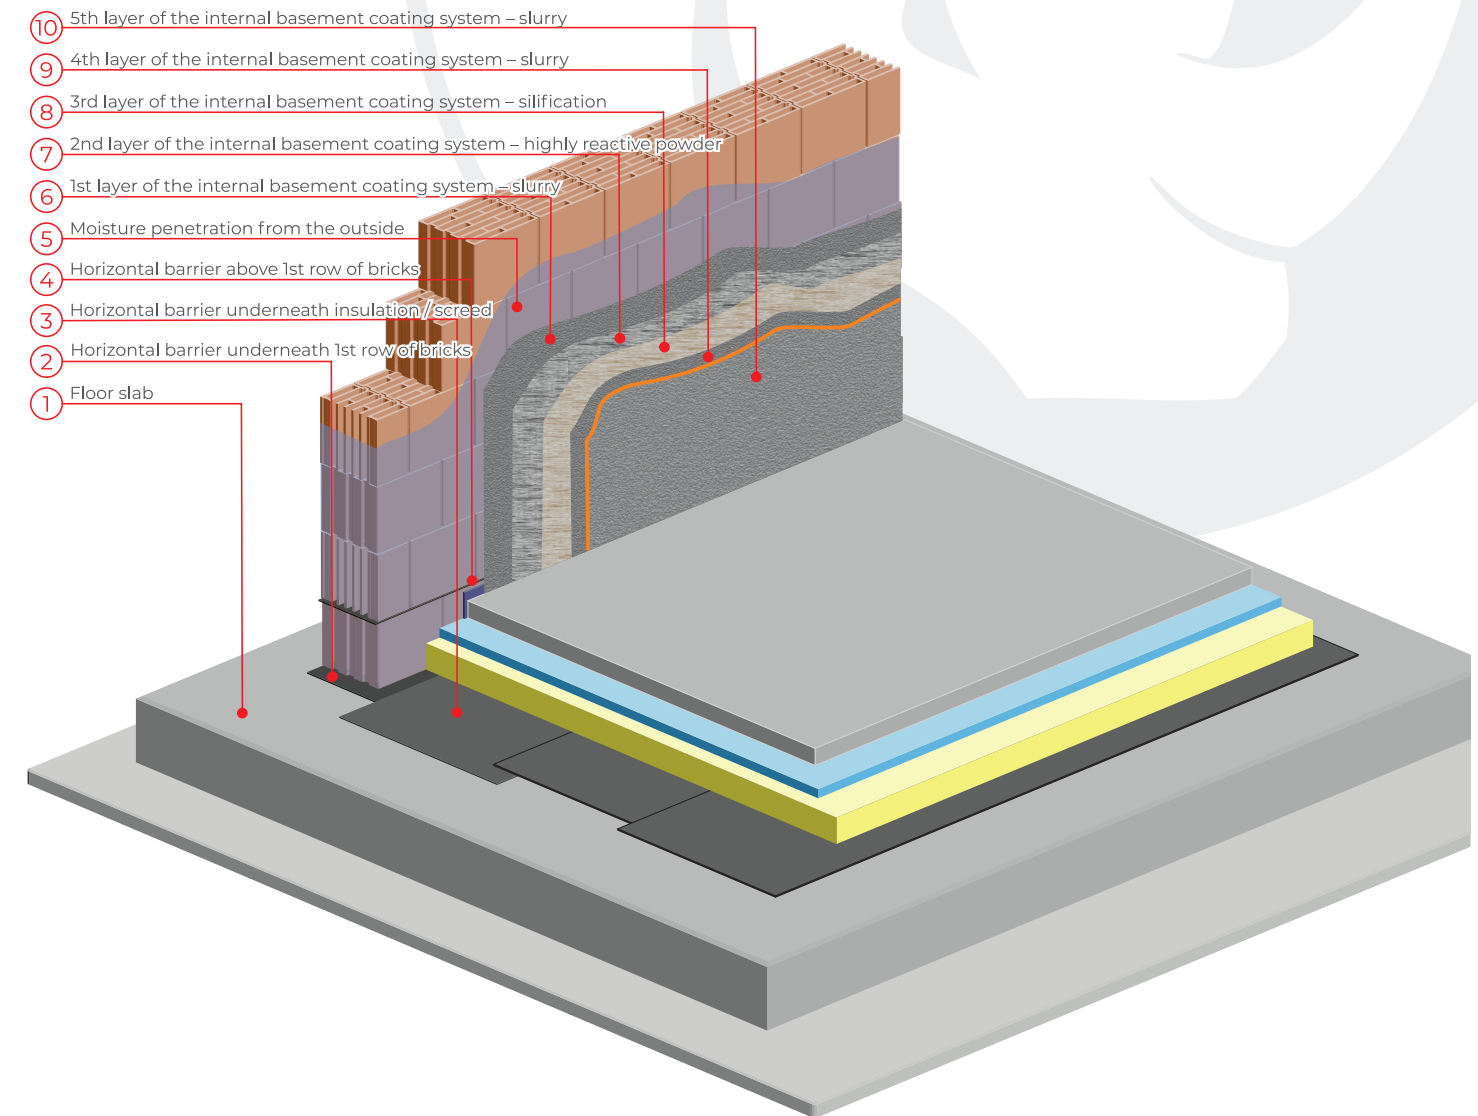

Type	Content	Colour	sufficient for
	12 kg	bluish	approx. 24 m ²

Order-No.	EAN-Code	Palletisation
6800000364	4 017228 00433 4	60 canister

Sealing with BORNIT® Basement Coating System from the negative side

- ① reinforced waterproof concrete
- ② BORNIT® G200 DD
- ③ BORNIT® V60 S4 + AL
- ④ BORNIT® G200 DD
- ⑤ despite horizontal barrier, water penetrating from the outside through defective sealing
- ⑥ BORNIT® Slurry
- ⑦ BORNIT® Water Stop (into the still fresh, wet slurry)
- ⑧ BORNIT® Solidificator (apply into Items 6+7 without wait)
- ⑨ BORNIT® Slurry - 1st layer (apply onto Items 6+7+8 without wait)
- ⑩ BORNIT® Slurry - 2nd layer (spread after 30 min.)

Road

Hot and cold sealing compounds, joint tapes, bituminous emulsions

BORNIT® Hot Compound Primer

Quick-drying, solvent-based, plastic-modified primer for substrate treatment in road and bridge construction, can be brushed and sprayed-on

System products:
BORNIT® Hot Sealing TL
BORNIT® Bitumen Joint Sealant 2C
BORNIT® Crack Tape
BORNIT® Joint Tape

Type	Content	Colour	sufficient for
10 ltr.	transparent		approx. 50 m ²
30 ltr.	transparent		approx. 150 m ²

Order-No.	EAN-Code	Palletisation
6800000431	4 017228 00700 7	30 canister
6800000429	4 017228 00701 4	12 canister

BORNIT® Hot Compound Primer Spray

Polymer primer for substrate preparation in road and bridge construction for hot casting compounds and melting strips, quick-drying, sprayable

System products:
BORNIT® Hot Sealing TL
BORNIT® Bitumen Joint Sealant 2C
BORNIT® Crack Tape
BORNIT® Joint Tape

Type	Content	Colour	sufficient for
600 ml	transparent		approx. 3 m ²

Order-No.	EAN-Code	Palletisation
6700000091	4 017228 00716 8	6 pieces per box

BORNIT® Joint Tape

Highly elastic, meltable polymer-bitumen joint tape for the production of connections and seam connections in road construction - especially for repair work

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® MultiClean
BORNIT® Joint Tape CSA
BORNIT® Joint Tape 7 CSA

Type	Content	Colour	sufficient for
30x10	63 m	black	approx. 63 m

Road

Hot and cold sealing compounds, joint tapes, bituminous emulsions

BORNIT® Hot Sealing TL

Polymer-bitumen grouting compound for sealing concrete and asphalt joints in roadways as well as concrete components in civil engineering, according to ZTV Fug-StB 15 and DIN EN 14188-1 (CE)

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® MultiClean
BORNIT® Sealant Heater
BORNIT® Pouring Can

Type	Content	Colour	sufficient for
10 kg	black		approx. 9.1 ltr. of joint content
25 kg	black		approx. 22.7 ltr. of joint content
30 kg	black		approx. 27.3 ltr. of joint content

Order-No.	EAN-Code	Palletisation
6800000334	4 017228 00704 5	80 box
6800000335	4 017228 00705 2	32 box
6800000424	4 017228 00718 2	11 bucket

BORNIT® Hot Sealing PS

Bitumen-based hot casting compound for sealing and closing all kinds of pavement joints

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® MultiClean
BORNIT® Sealant Heater
BORNIT® Pouring Can

Type	Content	Colour	sufficient for
15 kg	black		approx. 10.0 ltr. of joint content
30 kg	black		approx. 20.0 ltr. of joint content

Order-No.	EAN-Code	Palletisation

6800000421	4 017228 00703 8	36 box

BORNIT® Hot Sealing Rail

Polymer bitumen potting compound for potting and sealing rail joints in the road area, reduces vibrations, quality according to ZTV Fug-StB 15

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® MultiClean
BORNIT® Sealant Heater
BORNIT® Pouring Can

Type	Content	Colour	sufficient for
12 kg	black		approx. 9.2 ltr. of joint content
27 kg	black		approx. 20.8 ltr. of joint content

6800000874	4 017228 00928 5	36 box

BORNIT® Mastic Asphalt

Hot-processed repair compound for closing potholes and frost damages, suitable for roads of all construction classes, immediately passable after cooling Grain size 0 - 2 mm for layer thicknesses of 5 - 15 mm (Mastic Asphalt 20), Grain size 0 - 5 mm for layer thicknesses of 10 - 30 mm (Mastic Asphalt 50)

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
20	25 kg	black	approx. 1 m² at 1 cm layer thickness
50	25 kg	black	approx. 1 m² at 1 cm layer thickness

Order-No.	EAN-Code	Palletisation

6800000454	4 017228 00827 1	40 box

BORNIT® Hot Sealing N1

Polymer-bitumen grouting compound for sealing concrete and asphalt joints that are subject to high movement absorption, according to ZTV Fug-StB 15 and DIN EN 14188-1 (joint sealant type N1)

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® MultiClean
BORNIT® Sealant Heater
BORNIT® Pouring Can

Type	Content	Colour	sufficient for
10 kg	black		approx. 10.0 ltr. of joint content
22 kg	black		approx. 22.0 ltr. of joint content

BORNIT® Joint & Crack Widener

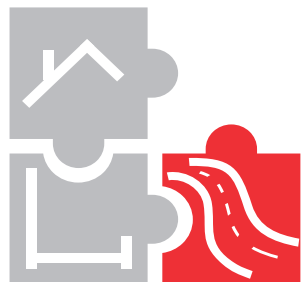

The Joint & Crack Widener is used to widen hairline cracks in asphalt and concrete surfaces

System products:
BORNIT® MultiClean
BORNIT® Hot Sealing TL
BORNIT® Hot Sealing N1

Type	Content	Colour	sufficient for
1 piece	red		

Order-No.	EAN-Code	Palletisation
		1 piece

Road

Hot and cold sealing compounds, joint tapes, bituminous emulsions

BORNIT® Hot-Air Lance

Robust hot air lance in lightweight construction, gas-fired RR heating unit

System products:
BORNIT® MultiClean
BORNIT® Hot Sealing TL
BORNIT® Hot Sealing NI
BORNIT® Hot Sealing Rail

Type	Content	Colour	sufficient for
	1 piece	black	

Order-No.	EAN-Code	Palletisation
6800000932		1 piece

BORNIT® Bitumen Joint Sealant 2C

Solvent-free, 2-component, bituminous joint sealing compound for sealing cracks, seams, joints in asphalt and concrete surfaces, also for bonding marker buttons, permanently elastic, heat and cold resistant

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® Bitumen Joint Sealant 2C
Mixing nozzle
BORNIT® Profi Cartridge Gun
BORNIT® Round Cord

Type	Content	Colour	sufficient for
	360 ml	black	approx. 14 m (at 5 x 5 mm)

6800000584		1 piece
		1 piece

BORNIT® Bitumen Joint Sealant 2C mixing nozzle

Plastic mixing nozzle for 2-component Bitumen Joint Sealant 2C crack repair compound, can be used with several cartridges

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® Bitumen Joint Sealant 2C
BORNIT® Profi Cartridge Gun
BORNIT® Round Cord

Type	Content	Colour	sufficient for
	1 piece	transparent	

Order-No.	EAN-Code	Palletisation
6800000774	4 017228 00109 8	1 piece

BORNIT® Pouring Can

Pouring cans with spout for the simple, accurate pouring of all hot-applied BORNIT® sealants. Content: 3.5, 12 or 20 liter

System products:
BORNIT® MultiClean
BORNIT® Hot Sealing TL
BORNIT® Hot Sealing NI
BORNIT® Hot Sealing Rail

Type	Content	Colour	sufficient for
3,5 ltr.	1 piece	black	approx. 3.5 ltr.
12 ltr.	1 piece	black	approx. 12 ltr.
20 ltr.	1 piece	black	approx. 20 ltr.

Road

Hot and cold sealing compounds, joint tapes, bituminous emulsions

BORNIT® Asphalt Primer

2-component adhesion promoter based on epoxy resin for polysulphide sealants for cut asphalt joints or non-absorbent substrates or metallic substrates

System products:
BORNIT® PS Cleaner
BORNIT® Cold Sealing Compound
BORNIT® Cold Joint Sealant
BORNIT® Round Cord

Type	Content	Colour	sufficient for
	1 ltr.	transparent	approx. 50 - 100 m joint

Order-No.	EAN-Code	Palletisation
6800000506	4 017228 00015 2	10 can

BORNIT® Cold Joint Sealant

2-component polysulphide filler, for sealing vertical or inclined joints in traffic areas made of concrete and cut asphalt, permanently elastic and stable

System products:
BORNIT® Asphalt Primer
BORNIT® Concrete Primer
BORNIT® PS-Cleaner
BORNIT® Round Cord

Type	Content	Colour	sufficient for
	2,5 ltr.	grey	approx. 2.5 ltr. of joint content
	4 ltr.	grey	approx. 2.5 ltr. of joint content
	2,5 ltr.	black	approx. 2.5 ltr. of joint content

BORNIT® Concrete Primer

2-component adhesion promoter based on epoxy resin for polysulphide sealants for cut concrete joints or absorbent substrates

System products:
BORNIT® PS Cleaner
BORNIT® Cold Sealing Compound
BORNIT® Cold Joint Sealant
BORNIT® Round Cord

Type	Content	Colour	sufficient for
	1 ltr.	transparent	approx. 50.0 - 100 m joint

Order-No.	EAN-Code	Palletisation
6800000505	4 017228 00014 5	10 can

BORNIT® PS Cleaner

Ketone-containing solvent for cleaning not yet cured polysulphide products, as e.g. BORNIT® Cold Sealing Compound and BORNIT® Cold Joint Sealant

System products:
BORNIT® Cold Sealing Compound
BORNIT® Cold Joint Sealant

Type	Content	Colour	sufficient for
	400 ml	transparent	

Order-No.	EAN-Code	Palletisation
6800000512	4 017228 00008 4	single /spray can

BORNIT® Cold Sealing Compound

2-component polysulphide joint sealant, for permanently elastic sealing of horizontal concrete and asphalt joints, expansion up to 25 % of the joint width, pourable, self-leveling

System products:
BORNIT® PS Cleaner
BORNIT® Asphalt Primer
BORNIT® Concrete Primer
BORNIT® Round Cord

Type	Content	Colour	sufficient for
	2,5 ltr.	black	depending on joint dimension
	4 ltr.	black	depending on joint dimension
	10 ltr.	black	depending on joint dimension

BORNIT® SpeedUp

Reaction component: - with BORNIT® Crack Flex - crack areas can be driven over after a few minutes, - with BORNIT® Profi 1C S - accelerated drying

System products:
BORNIT® Flexomat 3.1
BORNIT® Crack Module SpeedUp
BORNIT® Crack Flex
BORNIT® Profi 1C S

Type	Content	Colour	sufficient for
	22 kg	transparent	approx. 1375 linear metre

Order-No.	EAN-Code	Palletisation
6900003791	4 017228 00081 7	24 canister

BORNIT® Streufix 2.0

Further developed spreader cart for even chipping of cracks repaired with BORNIT® Crack Flex or small surfaces treated with road construction emulsions. Spreading width approx. 120 mm, capacity approx. 50 liters. Infinitely variable vibration function ensures even grit application. Vertical spreading prevents any mole hills. Amounts spread can be regulated on the cart. The recommend chips are dry 1/3 double-crushed chips

System products:
BORNIT® Crack Flex
BORNIT® Flexomat 3.1
BORNIT® Crack Module SpeedUp
1/3 BORNIT® High-quality chippings

Type	Content	Colour	sufficient for
	1 piece	red	

Order-No.	EAN-Code	Palletisation
6800000818		1 piece

BORNIT® Crack Module SpeedUp

Add-on module for the BORNIT® Flexomat 3.1; used for the rapid, clean, cold application of BORNIT® Crack Flex and BORNIT® SpeedUp as part of the repair or closure of cracks in asphalt road surfaces

System products:
BORNIT® MultiClean
BORNIT® Crack Flex
BORNIT® SpeedUp
BORNIT® Streufix 2.0

Type	Content	Colour	sufficient for
	1 piece	transparent	

Order-No.	EAN-Code	Palletisation
6800000702	4 017228 00097 8	1 piece

BORNIT® Crack Tape

Flexible polymer bitumen masking tape for the quick and easy repair of cracks and seams in asphalt surfaces, can be built over with asphalt

System products:
BORNIT® Hot Compound Primer Spray
BORNIT® MultiClean
BORNIT® Crack Tape CSA

Type	Content	Colour	sufficient for
40x3	44 m	black	approx. 44 m

6900002720	4 017228 00690 1	48 box

BORNIT® Flexomat 3.1

Basic unit for the modular add-on systems BORNIT® Edge Module, BORNIT® Joint Module and BORNIT® Crack Module SpeedUp for processing of the renovation products BORNIT® Joint Flex, BORNIT® Crack Flex and BORNIT® Edge Flex

System products:
BORNIT® Joint Flex
BORNIT® Crack Flex
BORNIT® Edge Flex
BORNIT® SpeedUp

Type	Content	Colour	sufficient for
1 piece		red	

Order-No.	EAN-Code	Palletisation
6800000508	4 017228 00090 9	1 piece

BORNIT® Joint Module

BORNIT® Edge Module

BORNIT® Crack Module SpeedUp

BORNIT® Edge Flex

Solvent-free, flexible bitumen compound for sealing the higher road edge on asphalt pavements, machine processing with Flexomat 3.1 and edge module

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Flexomat 3.1
BORNIT® Edge Module

Type	Content	Colour	sufficient for
	30 kg	black	approx. 75 linear metres with 10 cm working width

Order-No.	EAN-Code	Palletisation
6900002673	4 017228 00255 2	18 bucket

BORNIT® Edge Module

Add-on module for the BORNIT® Flexomat 3.1; used to seal the edges of load-bearing, binder and surface layers with BORNIT® Edge Flex

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Flexomat 3.1
BORNIT® Edge Flex

Type	Content	Colour	sufficient for
1 piece		black	

Order-No.	EAN-Code	Palletisation
6800000514	4 017228 00093 0	1 piece

BORNIT® Edge Sealant Hot

Bitumen compound to be processed hot, for sealing edges in asphalt road construction according to TL Sbit-StB 15, processing temperature +150 °C to +170 °C, sprayable (at least 4 mm nozzle)

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Sealant Heater
BORNIT® Pouring Can

Type	Content	Colour	sufficient for
	25 kg	black	approx. 62.5 linear metre

Order-No.	EAN-Code	Palletisation
6800000724	4 017228 00751 9	24 box

BORNIT® Joint Flex

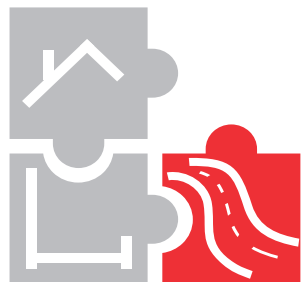

Solvent-free, thixotropic (high viscosity) and to -5 °C frostresistant bituminous compound for making flexible and permanent seams when installing asphalt mix in tapes (compliant with ZTV Asphalt StB07), machine pre-treatment of the center seam flanks when paving hot mix with BORNIT® Flexomat 3.1 and Joint Module

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Flexomat 3.1
BORNIT® Joint Module

Type	Content	Colour	sufficient for
	25 ltr.	black	approx. 123 m with 4 cm top layer

Order-No.	EAN-Code	Palletisation
6900002530	4 017228 00339 9	18 bucket

Road

Hot and cold sealing compounds, joint tapes, bituminous emulsions

BORNIT® Joint Module

Add-on module for the BORNIT® Flexomat 3.1; used for the rapid, clean application of BORNIT® Joint Flex to central seams during the strip-by-strip construction of rolled asphalt surfaces

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Flexomat 3.1
BORNIT® Joint Flex

Type	Content	Colour	sufficient for
1 piece	black		

Order-No.	EAN-Code	Palletisation
6800000515	4 017228 00091 6	1 piece

BORNIT® Asphalt Adhesive C40BF5-S

Cationic bitumen emulsion, binder content approx. 40 %, for pre-spraying soiled and aged asphalt surfaces, pre-treatment before application of mix or cation-active bitumen emulsions, quality according to TL BE-StB 15

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Asphalt Adhesive R2
C40BF5-S
BORNIT® Asphalt Adhesive Sprayer

Type	Content	Colour	sufficient for
190 kg	black		approx. 422.2 - 950.0 m ²
1000 kg	black		approx. 2222.2 - 5000.0 m ²

Order-No.	EAN-Code	Palletisation
6900002540	4 017228 00712 0	2 barrel
6900003290		1 IBC tank pallet

BORNIT® Bituminous Emulsion C60B4-REP

Solvent-free, unstable, cationic bitumen emulsion with a binding content of approx. 60 %, for surface treatments and repair patches with standardized chippings for sealing asphalt roads, quality according to TL BE-StB 15

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner

Type	Content	Colour	sufficient for
25 kg	black		approx. 11.3 - 17.8 m ²
190 kg	black		approx. 86.4 - 135.7 m ²
1000 kg	black		approx. 454.5 - 714.3 m ²

Order-No.	EAN-Code	Palletisation
6900002678	4 017228 00768 7	24 canister
6900002677	4 017228 00740 3	2 barrel
6900003422	4 017228 00695 6	1 IBC tank pallet

BORNIT® Asphalt Adhesive Sprayer

Handy spraying device for precise and energy-saving distribution of BORNIT® Asphalt Adhesive C40BF5-S on all kinds of small construction sites

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Asphalt Adhesive R2
C40BF5-S
BORNIT® Asphalt Adhesive-C40BF5-S

Type	Content	Colour	sufficient for
18 ltr.	light-grey		up to 90 m ² with one filling

Order-No.	EAN-Code	Palletisation
6800000935	4 017228 00887 5	1 piece

BORNIT® Asphalt Adhesive R2 C40BF5-S

Cationic bitumen emulsion, binder content approx. 40 %, for pre-spraying soiled and aged asphalt surfaces, pre-treatment before applying mix or cation-active bitumen emulsions, quality according to TL BE-StB 15

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Asphalt Adhesive C40BF5-S
BORNIT® Asphalt Adhesive Sprayer

Type	Content	Colour	sufficient for
25 kg	black		approx. 55.6 - 125.0 m ²

Order-No.	EAN-Code	Palletisation
6800001137	4 017228 00947 6	16 canister

BORNIT® Valve for Asphalt Adhesive Sprayer

Valve for Asphalt Adhesive Sprayer

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Asphalt Adhesive R2
C40BF5-S
BORNIT® Asphalt Adhesive Sprayer

Type	Content	Colour	sufficient for
car	1 piece	brass	
truck	1 piece	brass, red, blue	

Order-No.	EAN-Code	Palletisation
6800001004	4 017228 00107 4	1 piece
6800000934	4 017228 00108 1	1 piece

Note: For the return of rented containers which are not empty (e.g. vats, tank pallets) we charge for disposal 800.00 €/t.

BORNIT®
— ROCK SOLID CONNECTIONS —

Road

Hot and cold sealing compounds, joint tapes, bituminous emulsions

BORNIT® Coldmix Asphalt (bucket)

Solvent-free cold mix for the quick removal of potholes, frost cracks and other road damage, compaction with plate compactors or hand rammers and rolling traffic is essential. Grain size 0 to 5 mm

System products:
BORNIT® Bitumen Primer Spray
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Pounder

Type	Content	Colour	sufficient for
	25 kg	black	approx. 1 m ² per cm layer thickness

Order-No.	EAN-Code	Palletisation
6800000439	4 017228 00725 0	24 bucket

BORNIT® Pounder

Shock-absorbing special hand tamper with strong impact for black ceiling installation, paving and slab laying, concrete work, easy to use, precise to guide, does not tilt. Rubber buffers cushions harmful impacts and thus effectively protect the wrist. Handle tube made of precision steel tubing. Ideal for paving BORNIT® Reactive Asphalt, BORNIT® Asphalt Fix, BORNIT® Coldmix Asphalt (bag) and BORNIT® Coldmix Asphalt (bucket). Base plate: 18 x 18 cm, height: 116 cm, weight: 7.2 kg

System products:
BORNIT® MultiClean
BORNIT® Asphalt Fix
BORNIT® Coldmix Asphalt (bag)
BORNIT® Coldmix Asphalt (bucket)

Type	Content	Colour	sufficient for
	1 piece	red/black	

Order-No.	EAN-Code	Palletisation
6800000444	4 017228 00699 4	1 piece

BORNIT® Coldmix Asphalt (bag)

Solvent-free asphalt mix for easy and quick elimination of potholes, frost buckling and other road damages, compaction by vibratory plate resp. pounder and moving traffic, ready to use, cold workable

System products:
BORNIT® Bitumen Primer Spray
BORNIT® MultiClean
BORNIT® Pounder
BORNIT® Asphalt Fix

Type	Content	Colour	sufficient for
	25 kg	black	approx. 1 m ² per cm layer thickness

Order-No.	EAN-Code	Palletisation
6800000440	4 017228 00709 0	40 bag

BORNIT® Asphalt Pore Sealer

Solvent-free, ready-to-use bitumen slurry for sealing open-pored asphalt surfaces such as roadways, squares, sidewalks and bike paths, etc., tested according to TL-Sbit. Only pore closure, no layer thickness build-up!

System products:
BORNIT® Grundbit
BORNIT® MultiClean
BORNIT® Rubber Scraper
BORNIT® High-quality chippings

Type	Content	Colour	sufficient for
	30 kg	black	approx. 37.5 m ²

Order-No.	EAN-Code	Palletisation
6900002681	4 017228 00710 6	18 bucket

BORNIT® RoadStixx

Thermoplastic that can be installed hot (with gas burner), for repairing cracks and small potholes (up to Ø 20 cm, H45 mm) in asphalt and concrete, can also be used in frosty conditions

System products:
BORNIT® Bitumen Primer Spray
BORNIT® MultiClean

Type	Content	Colour	sufficient for
	12 kg	black	approx. 2.4 m ² per cm layer thickness

Order-No.	EAN-Code	Palletisation
6800001015	4 017228 01009 0	66 bag

BORNIT® Rubber Scraper

Extremely robust rubber scraper, ideally suited for processing BORNIT® Asphalt Pore Sealer, solvent-resistant

System products:
BORNIT® MultiClean
BORNIT® Bitumen Cleaner
BORNIT® Asphalt Pore Sealer

Type	Content	Colour	sufficient for
Scraper	1 piece		
Lip	1 piece

BORNIT® Road Markings

Thermoplastic markings, e.g. traffic signs, lines, directional arrows, symbols, letters, numbers, logos, etc.

Easy to use: clean substrate, apply motif, melt with burner; can be driven on after 10-20 minutes!

Special colours available based on RAL Classic and RAL Design System. Various motifs and dimensions available on request!

Prefabricated thermoplastic markings will be part of the future thanks to their environmental friendliness and quick and easy handling.

The future of silo coatings is called GREENLINE!

Especially by the sealing of JGS systems, there are a lot of high demands are made i.a. at the crack bridging. Based on the current requirements and guidelines, we have further developed our proven silo coating. BORNIT®-Siloflex is the new, solvent-free Bitumen-based silage protection coating with general authorization from the DIBt!

Completely solvent-free!

As a primer we recommend the new BORNIT® Siloflex Primer. Together with our BORNIT® Siloflex are these two products our new solvent-free innovations for a safe coating for your silo.

- proven bitumen protection
- solvent-free
- Inexpensive alternative to synthetic resin coatings
- 1-component - no mixing necessary
- with reduced surface stickiness
- quick drying, brushable and sprayable
- economical processing from large containers (180 kg barrel)
- resistant to organic acids, salts and bases

Info-Point

General terms and conditions

- 1. Applicability of the terms**
 - 1.1. These General Terms and Conditions (GTC) shall exclusively apply to business relationships with entrepreneurs in terms of § 14 BGB (German Civil Code), corporate bodies under public law and separate estates under public law. They shall not apply to contracts with consumers in terms of § 13 BGB.
 - 1.2. Our deliveries and services – including consulting – shall be undertaken, unless otherwise agreed, exclusively based on these GTC. These shall also always apply to our future deliveries and services to the customer.
 - 1.3. We disallow opposing terms or terms of the customer deviating from our GTC, unless we expressly consented to their applicability. Our GTC shall also apply, if we, aware of opposing terms or terms of the customer deviating from our GTC, undertake the delivery or service, resp., without reservation.
- 2. Offer and conclusion of contract**
 - 2.1. Our offers shall be – unless expressly agreed otherwise – non-binding. Contracts as well as their amendments and additions shall only be deemed concluded, when our written confirmation is present or when our delivery/service was rendered without reservation.
 - 2.2. Information on our products and services on the internet, in brochures or price lists shall not represent an offer binding us.
- 3. Prices**
 - 3.1. The prices agreed shall apply. Furthermore, calculation shall be undertaken according to our price lists respectively valid on the date of delivery/service. The basis for our prices shall be the price-determining factors given upon conclusion of the contract (e.g., wage agreements, raw materials or energy costs, costs for auxiliary and operating materials), in case of an increase in the price-determining factors, which cannot be compensated with cost savings, we reserve a respective price adjustment for deliveries, which shall be undertaken 2 months after the conclusion of contract, at the earliest. The amount of the price adjustment must be justified by the change in the price-determining factors and must be indicated to the customer within a reasonable period of time. If fixed prices were agreed, this shall only apply, if the changes occurred unforeseeable for us after conclusion of contract.
 - 3.2. All prices shall be understood plus the respectively valid value-added tax and, unless agreed otherwise, ex works.
 - 3.3. If delivery free domicile or on site was agreed, then the price shall include delivery in vehicles of our choice as well as unloading in one place only. We shall be entitled to increases in freight costs to the customer. The delivery of reduced quantities, the use of temperature-controlled or other special vehicles or the unloading of partial quantities in various places, resp., shall require a separate contractual agreement and must be additionally compensated by the customer. Costs for waiting/unloading times of max. 60 minutes shall be included in the agreed price. For idle times exceeding this, the customer will be charged separately.
 - 3.4. Should delivery be undertaken on pallets, then the customer shall be obliged to hand over empty pallets of the same quantity, type, and quality in exchangeable condition to the deliverer of the goods. The handing-over of pallets must be acknowledged by the deliverer on the delivery documents. The customer shall be charged for pallets not exchanged.
- 4. Determination of weights and quantities**
 - 4.1. We shall invoice on the basis of the weight determined at our supply plant.
 - 4.2. Upon sale by number of items, cubic metres, square metres or linear metres, the quantity determined upon loading shall be deemed decisive for invoicing.
- 5. Delivery / Service / Passage of risk**
 - 5.1. Our delivery shall, unless agreed otherwise, always be undertaken ex supply plant/warehouse. The risk shall pass to the customer as soon as the delivery is handed over to the person executing the transport. If the shipment becomes impossible or delayed through no fault on our part, then the risk shall pass to the customer with the notification of readiness for shipment.
 - 5.2. Upon delivery free domicile/on site, the unloading place must be well reachable for the vehicles. If access to the unloading place should be impossible or unacceptable for whichever reasons, then unloading shall be undertaken in that place, up to which the vehicle can get unhindered.
 - 5.3. Returnable containers and returnable packaging must be sent back to us by the customer completely empty and carriage paid within 60 days. Loss and damages shall be paid by the customer. Returnable containers/packaging must not be used of other purposes or for filling with other products. They shall be exclusively intended for the transport of our delivered goods. Labelling must not be removed.
- 6. Payment**
 - 6.1. Payments shall become due immediately upon delivery/a service being rendered. The customer shall fall into arrears, if he/she does not pay within 30 days after the due date and invoicing (decisive shall be the date of invoice). Should we arrange an advance on current account at an interest rate, which is higher than the interest on arrears resulting according to the provisions of the BGB, then we shall be entitled to calculate the interest rate corresponding to the interest on current account.
 - 6.2. Cheques shall only be accepted following special agreement and on account of payment, calculating all collection expenses and discount charges as well as other resulting fees.
 - 6.3. Should costs and interests have arisen already, then we shall be entitled to allocate the payment first to the costs, then to the interests, and last to the main service. We shall be entitled, despite provisions of the customer to the contrary, to allocate payments to his/her older debts.
 - 6.4. In case of cheques, payment shall only be deemed undertaken, once the cheque is cashed or the bill is honoured, resp., and there is no chargeback by the redeeming bank.
 - 6.5. In case of delayed payment of the customer, or should we become aware of other circumstances, which raise doubt on the creditworthiness of the customer, we can revoke allowed times for payment or deferments at any time. In addition, we can declare any further demands from our business relationship with the customer due immediately. Circumstances, which raise doubt on the creditworthiness of the customer, shall include, e.g., protested direct debts, non-redemption or chargeback of a cheque, pursuing of extrajudicial conciliation proceedings, cessation of payment, filing for insolvency against the assets of the customer or justified indications for over-indebtedness or impending insolvency of the customer.
 - 6.6. Under the pre-requisites of Clause 6.5, we shall also be entitled to hinge any deliveries/services to the customer on advance payments and/or the provision of securities and/or to cease the fulfilment of all existing delivery/service obligations – also such one, for which there is no delayed payment – for the time being. Furthermore, we shall be entitled to demand compensation and/or to withdraw from contracts for deliveries/services to the customer following expiry of a reasonable extension without any result.
 - 6.7. Rights of set-off and retention of the customer shall only be admissible with own legally established, acknowledged, or undisputed claims.
- 7. Times of delivery and service / Material returns**
 - 7.1. The dates and deadlines stated by us shall be non-binding.
 - 7.2. Only 24 hours after exceeding of a non-binding date of delivery/service or a non-binding delivery/service deadline, the customer may request us in writing to deliver/render a service within an appropriate period of time. With this reminder, we shall enter into default.
 - 7.3. In case of default, the customer shall only be entitled to withdrawal, when he/she sets a reasonable grace period in writing, indicating, that he/she would reject acceptance of the subject matter of the contract after expiry of the deadline and the deadline expired without success. The withdrawal must be in writing.
 - 7.4. We shall not be responsible for delays in delivery and service due to force majeure and due to events, which make it significantly more difficult or impossible for us to undertake the delivery/service – these shall also include subsequently occurred difficulties in materials procurement, operational disturbances, strike, lockout, lack of raw materials or energy, lack of personnel, lack of means of transport, official orders, etc., also if they occur at our subcontractors or their subcontractors, also in case of bindingly agreed deadlines and dates. In case of delays in terms of Para. 1, we shall be entitled to postpone the delivery or service, resp., by the duration of the hindrance, plus a reasonable lead time, or to completely or partially withdraw from the contract for the part not undertaken yet. Should the hindrance last longer than 10 days, then the customer shall be entitled to withdraw from the contract according to Clause 7.3 with regard to the part not fulfilled yet.
 - 7.5. Claims for damages of the customer shall be determined according to Clause 9 of these GTC in conjunction with the legal provisions.
 - 7.6. We shall be entitled to partial deliveries and partial services anytime.
 - 7.7. The return of defect-free goods delivered by us shall be excluded. Should we, by way of exception, agree

- to the return, then crediting for the goods taken back shall only take place insofar as our laboratory determines their unrestricted reusability. For the costs of examination, processing, reworking and new packaging, the actual costs, at least, however, 20 % of the amount invoiced for the respective goods, or – if the amount determined this way should be lower – at least, however, € 30.00 will be deducted. The credit will not be paid out, but shall serve for offsetting with future deliveries only. Should the laboratory tests not confirm unrestricted reusability, then we shall be entitled to charge the customer with the costs for the laboratory testing as well as for proper disposal of the goods to the full amount.
- 8. Quality / Rights in case of defects**
 - 8.1. The quality of our goods corresponds with the information given in our German-language technical datasheets valid at the time of contract conclusion and retrievable under www.bornit.de/de. The information shall be deemed approximate and shall always serve as a yardstick for the determination, whether the subject matter of the contract is free from defects, wherein tolerance regulations included in the sets of rules must be applied. It is known to the customer that the goods sold by us have different shelf lives and areas of application. The risk of suitability and application shall be exclusively incumbent on the customer.
 - 8.2. The customer must immediately notify us about defects in writing, indicating the order and batch numbers. The same shall apply to other complaints of whichever kind. The customer must immediately inform us about intended sampling at the construction site and give us the opportunity to participate in time.
 - 8.3. In case of defective delivery, we shall provide replacement and compensate reasonable expenses required for the purpose of supplementary performance (including removal and installation costs) pursuant to the legal provisions, if and as far as the damage was not caused by other circumstances (e.g., errors in installation and/or planning).
 - 8.4. The legal deadlines shall apply to the assertion of claims for defects. Should the term of liability for defects of the customer in the relationship to his/her client, however, end earlier than the legal deadline valid for our contractual relationship to the customer, then our liability for defects shall end 1 month after expiry of the deadline valid in the relationship of the customer to his/her client. The deadlines shall start with the respective date of delivery/service.
 - 8.5. Technical specifications and standards applicable abroad, which deviate from our technical datasheets or safety datasheets, resp., shall only be deemed agreed in the relationship between the customer and us, when this was agreed in writing between the customer and us. Should such an agreement not be present, then we shall not be liable for the goods delivered complying with these specifications/standards. Should there, nevertheless, be third-party claims because of the quality of our goods against us – no matter for which legal reason –, then the seller shall be obliged to completely indemnify us from these, unless the claims are due to the fact that the goods do not comply with the quality contractually agreed between the buyer and us.
- 9. Liability / Damages**
 - 9.1. In case of claims for damages of the customer according to the Product Liability Act, according to Art. 82 DSGVO, for injury to life, body, or health, for fraudulent concealment of defects or for assumption of a guarantee for the quality of the item delivered, we shall be liable according to the legal provisions. In case of infringement of essential contractual obligations, we shall be liable for intent and gross negligence according to the legal provisions. Apart from that – as far as the claims for damages of the customer do not fall under Paras. 1 and 2 – our liability shall be limited to the contract-typical damage foreseeable upon conclusion of contract.
 - 9.2. As far as nothing else results from Clause 9.1, the liability for consequential damages shall be excluded.
- 10. Comprehensive reservation of title**
 - 10.1. The goods delivered by us (reserved goods) shall remain our property until fulfillment of any and all claims we are entitled to from the business relationship towards the customer. The customer shall be entitled to process and sell the reserved goods in proper business transactions. It is not a proper business transaction, if, in case of sales of the customer or in case of his/her other orders or actions in favour of third parties, the assignability of his/her claims to third parties is excluded. Pledges or assignments as security of the reserved goods shall be inadmissible.
 - 10.2. Processing or transformation shall always be undertaken for us as the manufacturer, however, without obligation for us. The processed goods shall likewise be deemed reserved goods. In case of connection or mixing of the reserved goods with other mobile objects, to the effect that they become essential components of a uniform object, we shall become co-owners in this object; our share shall be determined by the value ratio of the objects at the time of connection or mixing. If, however, the reserved goods have to be considered as the main object, then we shall obtain sole ownership. In case of connection of the reserved goods with a structure, a claim of the customer for the grant of a recordable security interest of the building contractor in the building plot of his/her order to the amount of the part, which corresponds to the value of the reserved goods, shall be assigned to us.
 - 10.3. Claims resulting from the resale/further processing or another legal reason with regard to the reserved goods shall already be assigned to us by the customer as a security to the amount of the purchase price of the reserved goods. The customer shall be authorised to collect these claims for us. The authorisation to collect shall become ineffective, should the customer not properly fulfil his/her payment obligations towards us. In this case, we shall be entitled to disclose the assignments to the third-party debtors.
 - 10.4. In case of deliveries in construction projects, for which, in the relationship between the customer and the client, partial assignment is only allowed after previous consent of the client, this, however, is not present, or partial assignment is excluded in general, the following shall apply deviating from Clause 10.3: the assignment, regardless of the amount of the purchase price of the reserved goods, shall refer to the entire claims the customer is entitled to from the construction project, for the fulfilment of which the customer disposed of the reserved goods. Payments of the third-party debtor to us shall be immediately transferred to the customer, as soon as our claim to payment of the purchase price as well as possible accessory claims were paid.
 - 10.5. Should the value of the securities granted to us exceed our claims by at least 50 %, then we shall, at the customer's demand and at our discretion, release securities we are entitled to to the extent as they exceed the value of 110 % of our claims.
 - 10.6. The customer shall be obliged to provide us, immediately and at his/her cost, with the information required for the assertion of our claims and other claims, and to hand over the documents of proof, as far as they are in his/her possession. The obligation shall correspondingly exist in case of a foreclosure on objects, claims and other rights to assets belonging to us. The customer must immediately inform us about the foreclosure. Additionally, he/she will point out our rights to the attaching creditor in writing. Beside the above obligations to provide information and present documents of proof, the customer shall be obliged to indicate the assignment to the third-party debtors together with us in writing.
- 11. Group invoicing clause**

We shall be entitled to offset all claims – no matter which kind – with any and all claims of the customer, which he/she shall be entitled to from us and from companies associated with us in terms of the Companies Act, also in case of various due dates of the claims, as far as it is known to the customer that the respective company is an associated company.
- 12. Other provisions**
 - 12.1. Information about personal data processed by us within the scope of contract performance can be retrieved from our data protection notice.
 - 12.2. As far as legally admissible, all legal disputes directly or indirectly resulting from the contractual relationship shall be brought before the court, which is competent for our registered office. We shall also be entitled to take legal action at the registered office of the customer.
 - 12.3. The laws of the Federal Republic of Germany shall apply to these terms and conditions and the entire legal relationship between us and the customer, excluding the UN Convention on Contracts for the International Sale of Goods.
 - 12.4. Should a provision in these terms and conditions or a provision within the scope of other agreements be or become ineffective, then this shall not affect the effectiveness of all other provisions or agreements.
